Hi, MyBaits Team Members:
   Our Open-Source team write a project called **MyBaits-Plus**, It's an enhanced toolkit
of Mybatis for simplify development, Just like a plugin.

   We wish is be the best partner of MyBatis, So, We want to use the MyBatis Ninja
LOGO which with blue color, Just like game player on the game of Contra.

   If the original author agrees to use the blue logo, We will be very honored and
excited.
   If disagree, We will stop using all the blue logos and issue an apology.

   Thank you for taking the time to read my email, Looking forward to your reply.

   Best Regards

   Open-Source Team baomidou

   Our Project Repo URL: https://github.com/baomidou/mybatis-plus
   Our Fork Logo Repo URL: https://github.com/baomidou/logo
   The Blue Logo of MyBatis Ninja Logo:

Hi!

MyBatis and its logo is a trademark so we should go first through some short paperwork.

Can you please send a description for these points?
- Scope (who and were will the logo be used)
- Purpose (what is the purpose of the project and the license of the software you make)
- Duration (temporal.. indefinite...).

Thanks in advance!

Hi!

Very glad to receive your message! Thank you for your reply to!

- Scope: README files of MyBatis-Plus(https://github.com/baomidou、https://gitee.com/baomidou)、Doc of MyBatis-Plus(https://mp.baomidou.com/#/)
- Purpose: Apache License Version 2.0
- Duration: We want to use this blue logo all the time until stop maintenance this open source project.

We will not use the blue logo for business activity, only use for open-source project.

Best wishes!

Hi! Clinton Begin is preparing a short mail with "agreements". Probably he is busy and this may take some time. Don't
worry and sorry for the delay!

Hi all,

I was going to type something up this weekend, but I think this email thread is detailed enough to act as the
agreement. And to that effect we're happy to agree to your use of the augmented logo for the scope, purpose, and
duration as you laid them out here. Your project looks pretty great.

As always, the only limitation is that you must not use the logo to impersonate, act as, or communicate on behalf of
the iBATIS/MyBatis team.

The one request I'd make is that because the logos would look identical when printed or displayed in monochrome /
black and white, could you add any small change that might distinguish it. I think a simple "+" would look cool on the
mask! :-)

Cheers,
Clinton

Hi!

Thank you for sparing a time to reply.
We are very excited about the authorization of the blue LOGO and your appreciation of our project. I am all gratitude.

Commitment to use the blue LOGO:

1. We will only use the blue mybatis ninja logo which with a white ninja cross dart :

TO BE THE BEST PARTNER OF MYBATIS

2. We will not use the blue logo to impersonate, act as, or communicate on behalf of the iBATIS/MyBatis team, MyBatis-Plus is an enhancement tool for MyBatis. Our project based on MyBatis, we respect every member of the MyBatis team, let alone impersonate or act as or communicate on behalf of the iBATIS/MyBatis team.

3. We also use the blue LOGO on our new cool doc website(https://mybatis.plus), This is a very cool domain name, We will use this new domain name as our official document website, However, this website is not included in the scope

Once again, I'd like to express my gratitude.
Best wishes!
